Business: Laurel Presbyterian Church: Steve S., John M., Pat O'Leary, Jeannie & Bob Iacovazzi met with Jerry Pelch and the church's property committee Monday evening 1/7/12. We respectfully declined developing the project for them, and encouraged them to do the project themselves. We offered our help if they choose to form their own LLC.

Continuing discussion was held on the current conditions relating to Federal & State incentives & sREC's. Discussed some proposed legislation for this year's General Assembly to address and fix the current sREC pricing. Possible solutions are to raise the RPS (Renewable Portfolio Standard), pass legislation allowing Solar Farms, etc. Steve attended a meeting with Dave Brosch that addressed these issues as well as some examples of what other states such as CT. are doing.

Steve S. has identified a possible site in DC at Takoma Village. It is a 28 unit co-housing community with a large common house. An approx. 49kw array could be installed. We agreed to pursue investigating the host site.
